PROFILE

Fullstack developer specializing in React, Node.js, and cloud based applications, with hands on experience delivering cross platform mobile and web solutions. Currently an Intern Developer at BenWorldwide building client facing applications using React Native, Node.js, and MongoDB. Strong background in REST API development, cloud integration (AWS), and scalable system design, with growing interest in AI powered applications and real time systems.

EDUCATION

BSc (Hons) in Electronics and Computer Science,
specializing in Computer Science, University of Kelaniya
Current GPA - 3.62

CERTIFICATIONS

- AWS Cloud Practitioner
- AWS Educate: Introduction to Cloud 101
- AWS Educate: Getting Started with Storage
- Microsoft Learn: Describe Cloud Computing
- HackerRank certified SQL (Basic)

SOFT SKILLS

- Teamwork
- Quick Learner
- Time and Work Management
- UI/UX Designing

WORK EXPERIENCE

Intern Developer BenWorldwide PVT LTD
2025 September - Present

- Developed 3+ cross platform mobile and web applications using Ionic, React and Next.js by improving performance and user experience across iOS, Android, and web.
- Built responsive UIs and translated design concepts into functional interfaces, contributing to UI/UX development across multiple projects.
- Integrated third party APIs and automated business workflows using n8n to streamline processes.
- Customized WordPress solutions, contributed to backend automation, and participated in code reviews to ensure high quality deliverables.

TECHNICAL SKILLS

- **Programming Languages:** HTML, CSS, JavaScript, TypeScript, PHP, Java, Python, Node.js, Angular
- **Database :** MySQL, MongoDB, Firebase, Postgre SQL
- **Version Control Services :** Git
- **Cloud :** AWS
- **Frameworks :** Spring Boot, React, React Native
- **Design :** Figma, Blender, Wordpress
- **Data Visualization:** PowerBI

PROFESSIONAL AFFILIATIONS

- Worked as ER team member for the UOK Robot Battles, 2024
- Batch representative (2024–2025)

LANGUAGE

- Sinhala
- English

VOLUNTEERINGS

- Content Writing Team Member of ECS Club, University of Kelaniya, Sri Lanka.
- Worked as Emergency Response (ER) team member for the UOK Robot Battles, 2024.
- Secretary team member in IEEE student branch, UOK.
- Member of AWS community, University of Kelaniya, Sri Lanka.

PERSONAL PROJECT EXPERIENCE

Bicycle Sharing System (Group Project)

Tech Stack : Spring Boot, MongoDB, JWT, React, Bootstrap

- Developed a full-stack bike rental platform with user authentication, real-time bike tracking, payment processing, and subscription plans.

GitHub Demo 1 GitHub Demo 2

Real Time Oxygen Saturation Estimator (Solo Project)

Tech Stack : Python, React, Pytorch

- Developed a non contact SpO₂ monitoring system using deep learning to estimate blood oxygen levels from facial video (rPPG).

GitHub Demo

Learning Management System (MERN Stack | Solo Project)

Tech Stack : Node.js, MongoDB, React, Tailwind CSS, Google Auth

- Developed a MERN stack LMS with Gmail login, course management, student tracking, and a responsive UI, along with an enhanced admin panel for streamlined user and content management.

GitHub Demo

Smart Vehicle Parking System

Tech Stack : React, React Native, Firebase, Arduino, Google Maps API

- Built a smart parking solution using geolocation and QR codes to guide users to available spots.
- Implemented automated gate control and dynamic registration for efficient space management.
- Integrated sensor data with a mobile app to provide real-time parking availability updates.
